- e) Council resolved to bring forward the following resolution to AKBLG and UBCM regarding Emergency Medical Aid and First Responder Re-Imbursement

WHEREAS many rural areas in the Province are isolated with limited communications and large distances from established communities, there is a need in extenuating circumstances for Emergency Medical Aid First Responders (EMAFR) to attend emergency scenes at a considerable distance from the station. These 'Out of Jurisdiction' responses require both skilled personnel and a rescue vehicle and can be of several hours duration. In many instances, the EMAFR are located closer to the scene of an incident than BC Ambulance Service (BCAS) and can provide a response sooner than the BCAS;

AND WHEREAS during these 'Out of Jurisdiction' responses, Fire Departments are re-imbursed for activities under Emergency Management BC Policy 2.07, Road and Medical Rescue; while Emergency Medical Aid First Responders are not re-imbursed for their activities at the same scene;

THEREFORE BE IT RESOLVED that Emergency Management BC be requested to amend Road and Medical Rescue Policy 2.07 to include Emergency Medical Aid First Responders as eligible for re-imbursement under Section 2.07.3 for extenuating circumstances.

VILLAGE OF RADIUM HOT SPRINGS

Regular Council Meeting Minutes from February 23rd, 2022 continued...

f) Council resolved to bring forward the following resolution to UBCM regarding library funding:

Whereas libraries in British Columbia are largely financed by levies paid by local governments, and where provincial library funding has remained stagnant for the past 10 years;

And whereas public libraries are central to communities, providing equitable access to vital resources, including internet, computers, digital library tools, and in-person services from expert staff;

And whereas public libraries provide British Columbians with low-barrier services, that support job seekers and small businesses, that increase literacy in communities, that advance reconciliation with Indigenous peoples, and that promote equity and inclusion;

Therefore be it resolved that The Village of Radium Hot Springs and Radium Library Board urges the Government of British Columbia to provide clarity on the funding formula and equity in funding for public libraries in BC;

And be it further resolved that the Province ensure that BC Libraries will henceforth receive regular increases to Provincial Government funding reflecting the BC Consumer Price Index in subsequent years.

Councillor Gray gave a shout out to all local Olympians, including his niece Cassidy Gray.

Councillor Logan asked for a sheep update. Kent Kebe advised that hill monitoring was going well and that they are seeing approximately 80-105 at the feeding station. No incidents in two weeks. Kent is also on a weekly call with MOTI.

CFO Sharp advised donations were coming in daily. Mayor Reinhardt advised that Minister Fleming was meeting with an environmental group and the potential for funding for the overpass project would be discussed. Tourism Radium is also creating educational postings via social media in order to keep up the interest in donating for the proposed overpass.

VILLAGE OF RADIUM HOT SPRINGS

CAO Dohlen advised that the CBT community meeting date is being decided upon. Date

To whom it may concern on the Radium Hot Springs Village Council,

We are writing this letter to request the re-consideration of Bylaw 244 Section 3.13, which states that “no person shall carry on business as a mobile store or restaurant in any location within the Village of Radium Hot Springs, including on a highway, sidewalk or boulevard, or on private property”. ‘We’ are Peter Penkala and Savannah Taylor - the owner-operators of ‘The Good Badger Cafe’, a mobile high quality coffee vending business, which will be operating in the Columbia Valley starting in the spring of 2022.

It is our perspective that while the bylaw does have merit in ensuring that existing businesses in the Village of Radium Hot Springs do not face undue competition, there may be value in allowing mobile vendors in certain niche situations, when certain conditions are met. We are asking the Council to consider permitting mobile vendors in situations where current service providers are not able to sufficiently meet demand, especially during the peak tourist season. This could be done on a case by case basis, with permits being awarded at the council’s discretion.

The bylaw also may well not need to be done away with outright, but simply modified to some degree. In order to avoid over-congestion or traffic flow related complications, it may be worth while, for example, to only adjust the bylaw for situations where vendors could be located on private property. Approaching from this angle would also mean that prospective vendors would still be contributing to the village’s tax base (either through ownership or via a rental agreement), and therefore would not be unfairly benefitting from a new prospective bylaw relative to other tax paying businesses.

We feel that during the height of the tourist season, an additional high quality ‘coffee and a snack’ style takeaway vendor could help to meet overflowing clientele from current establishments in a way that would not hurt their bottom line. We feel that visitors to Radium deserve to have their needs met in a timely and enjoyable fashion, and that if we succeed as a community in making that happen, it will be good for us all in the long run.

We hope that you find our rationale for requesting an adjustment to the above bylaw to be sound, and are only asking that applications be considered on a case by case basis, rather than denied outright. At the very least we feel that the bylaw deserves re-consideration and re-evaluation as the needs of communities do change over time.

Thank you for taking the time to consider this request,

Peter Penkala, and Savannah Taylor,
Owner/Operators of The Good Badger Cafe.
